21. February 2018

Minutes of the Project Meeting in Hannover 15.02.2018

Number of participants: 76 (see [Homepage](#))

1. The project members listened to 31 scientific presentations plus one for coordination.
2. Within the coordination project and the final discussion, it is agreed on, that only one annual meeting of all project members will take place. In-between this time period more frequent meetings of, at this moment, 4 smaller project groups will be organized. The participants agreed on a reasonable structure of smaller groups with one person in charge of organizing a meeting in fall 2018.
